RESPONSIBLE OWNER PROGRAM

WHAT'S NEXT?

Hearing that your dog has been deemed dangerous can be an emotional experience. Compounding these emotions is this “can of worms” that gets opened which often prompts questions and confusion. To add insult to injury, finding the right people and resources can be like finding a needle in a haystack. Who do you know to trust?

DogGoneInsurance.com is here to help, you will be met with a culture of acceptance, professionalism and dedication to listening in order to help. We have taken the time to carefully select who we feel are the best of the best and assembled an “A” team for you. You will find the collaborative help you need with Insurance, Dog Training, and Legal – all working together for you to navigate the Dangerous Dog Process. We work together, with you, in a common goal to remove the Dangerous Dog Designation.

How the program works:

During our initial contact we will gather information, we will help determine and advise what we believe is the best course of action on a case by case basis. When a Dangerous Dog Designation stays on a dog heres how we help:

- Information Gathering and an Animal Liability Policy is placed on the Dog, satisfying state and municipality requirements.
- An initial training assessment is set and after the assessment a training plan is put in place. A final assesment is done when training is complete.
- Lastly, we request a hearing with the city with the intention to request a removal of the dangerous dog designation.

While we have seen great success with this program and our team is all seasoned in our areas of expertise, we cannot guarantee that the Dangerous Dog Designation will be removed.

Much of our success depends on your level of commitment – we work for you!
